PROFILE

Passionate and adaptable student with a strong drive to excel in various IT domains. Eager to embrace emerging technologies and confront new challenges head-on. Possesses a solid foundation in problem-solving, programming, and cloud computing, ready to contribute innovative solutions. Adept in communication, organization, and operations management, complementing technical prowess with effective collaboration and presentation skills.

INTERNSHIPS

Azure Intern

Jun 2023 - Jul 2023

Cincyr Tech Pvt. Ltd.

- Proficiently managed Azure Services including Virtual Machines, Storage, Azure AD, and Virtual Networks.
- Skillfully assigned Azure Directory role assignments, optimizing access control.
- Configured Azure components: NICs, Virtual Networks, VMs, and Service/Private Endpoints.
- Implemented robust encryption via storage account integration and CMK usage.
- Effectively utilized and maintained Azure Key Vault for secure credential management.
- Established foundational infrastructure: Availability Sets, VM Snapshots, VMSS, and backups.
- Expertly transferred local files to Azure Storage via Windows Storage Explorer.
- Implemented storage redundancy strategies (LRS, GRS, ZRS, RA-GRS) for data resilience.
- Utilized Azure Monitoring Services for proactive issue detection and troubleshooting.
- Formulated support requests via Azure portal to address Azure resource challenges.

PROJECTS

Fonder

Feb 2023 - Apr 2023

A social networking app based on restaurants and food choices

HTML, CSS, JS, Bootstrap, MySQL, Python

- Location-Based Social Networking : Enabled real-time, location-based social networks on mobile devices.
- Interest-Based Matching : Facilitated connections based on common interests within a 200-meter Wi-Fi radius.
- Privacy-First Approach : Prioritized user privacy by not accessing exact location data.
- Versatile Applications : Applicable in diverse scenarios, including business meetings and disaster communication.
- Efficient Wi-Fi Messaging : Implemented "OffAT" for decentralized text and handwritten messaging.
- Structured Project : Managed project sections on research, architecture, and results.
